BASEBALL

Twin Towns 21; West Paris 8

The West Paris town team was outclassed in a go-as-you-please game at the fair grounds, the forenoon of July 4th. A good crowd assembled to witness the opening number for the holiday, and were not disappointed if errors, stealing bases, and hard hitting, were the chief amusement.

Both teams hit close to the Babe Ruth class and padded averages with two or three sackers. "Lefty" Beek was the only Twin Towner who failed to cop at least two hits. Emery, R. Doughty and Harry Rowe, the long distance hitter, all of West Paris, fell into the zero group, but other members landed safely.

Everybody laced the pill and covered the distance during the first frame but settled down until the fifth when the Twins spurted into a game of "scrub." Billy White shifted his players when the vistors came up for the last time and replaced Beek in the box. West Paris was even then not able to send a runner across. Cahill hauled down a star gazer in center field and brought the crowd to its feet. This was a pretty jump and one-hand stab. The score:

Twin Towns 8; Boston Tigers 2

The afternoon game attracted at least one thousand fans and developed no little excitement. After an auto ride from Rumford, where the Tigers played in the forenoon, this colored aggregation was not in the best physical condition and several misplays around the third base corner resulted.

Tommy Paynter held the Boston outfit to six single sand a double. The Twins breezed out nine one-sackers, and three triples, produced by Kneeland, Robinson and White. The score:

Twin Towns 8; Dixfield 1

The leaders of the Inter-State League were jolted at Dixfield, Wednesday afternoon, by the Norway-South Paris Twins. The Dixies were not able to connect safely with Paynter's delivery and registered only four hits. Oldenbloom, the box artist, for Dixfield, fell into hard luck and was used roughly, with eleven bangs against him. His support was a bit ragged at times.

League Standing

At Berlin, Wednesday, the Athletics captured Berlin, N. H., with a 3-1 score, Dave Masterman's long hit in the eighth saved the game for Lewiston. Standing of the League to date (July 10) is as follows:

	Won	Lost	P. C.
Dixfield	3	2	.600
Berlin	2	2	.500
Twin Towns	2	2	.500
Athletics	2	3	.400

Walter L. Main Circus

A few less than twenty cars hauled in one section, brought the Walter L. Main Circus to South Paris from Berlin, N. H., early Tuesday morning. Unloading commenced about 6 o'clock and a large spread of canvas soon went up on the fair grounds. Work was done in an orderly way with efficiency noticeable in every department. A field kitchen equipment of the latest type, served meals to the entire force of nearly four hundred people. The stables cared for unusually fine looking horses.

A parade with bands, calliopes, riders handsomely dressed, funny clowns and dens of animals, toured the Twin-Towns with the population assembled on sidewalks, along the route.

Of course the three sideshows opened strong with a good collection of freaks, animals, and platform features, including a plantation show.

The menagerie was not large, but of sufficient size for a good excuse to conventional parents, using the children for an alibi, to see the entire show.

The circus performance was given in two rings and on an elevated stage before a fair sized crowd at the matinee, and a big patronage in the evening. Every act was good, from the entree and opening aerial displaw, to the closing Indian riding novelty put on by the Lloyds. Head line stunts were featured by the Colieano Family of acrobats of Australia; the Three Oranto, perch equilibrists and the famous Maximo, the Cuban high-wire artist. Many acts doubled in juggling, in acrobatics, trapeze work, and riding, so a comparatively few performers presented a program of unusual excellence.

The proverbial concert, or after show, was a wild west program, and wrestling match, with local flavor. Homer Truman of Norway, accepted a challenge of the strong man, carried by the show and stopped in the game the allotted time. Naturally this stunt created much enthusiasm, for Truman is known throughout Maine, as a one-time champoin middle weight clincher.

From all appearances the outfit is clean-cut and free from objectional features, about the lot or under the canvas.

The show is headed for Aroostook County, with stands at Mechanic Falls, Farmington, Skowhegan and Dexter.

Savings for Users of Telephone Toll Lines

Telephone users will be glad to know that on July 2nd the Federal taxes on telephone toll messages were abolished. Speaking of this reduction, General Manager, M. P. Abbott of the Maine Telephone and Telegraph Company said:

"During the war the Congress of the United States established a Federal tax on telephone toll calls. Where the initial telephone charge was more than 14 cents and less than 50 cents, the Telephone Company collected a tax of five cents, which was paid to the government. Where the initial telephone charge was more than 50 cents, the government received a ten cent tax.

"As a part of the recent revenue act, Congress deemed it wise to abolish these taxes, which will result in a considerable saving to telephone users. It means a reductoin in the cost of all toll calls where the initial rate is 15 cents or more, and affords an opportunity for telephone users to save money when using the toll service."

I Am Your Town

Make of me what you will—I shall reflect you as clearly as a mirror throws back a candle beam.

If I am pleasing to the eye of the stranger within my gates; if I am such a sight as having seen me, he will remember me all his days as a thing of beauty, credit is yours.

Ambition and opportunity call some of my sons and daughters to high tastes and mighty privileges, to my greater honor and to my good repute in far places, but it is not chiefly these who are my strength. My strength is in those who remain, who are content with what they can offer me. It was the greatest of all Romans, who said, "Better to be first in a little Iberian village than be second in Rome."

I am more than wood and brick and stone—more even than flesh and blood—I am the composite soul of all who call me home.

I am your town.

Vacationists for a short stay, are arriving at "Meadow View" free camp ground, below the village. During the holiday week many parties occupied the spot and recorded in the register expressions of gratitude for the conveinences placed there by the Norway Board of Trade.

Mrs. Luella Smiley is preparing to open a tea room at the public camp ground, on Fore street. Her father, George Cook, is putting up the building and expects to have it ready in a few days. The building contains three rooms with large screened in piazzas, where tables for serving meals, will be placed.

Mr. and Mrs. Stone Andrews enjoyed several days last week at their camp on the upper shore of Lake Auburn.

Mr. and Mrs. Julius DeCroteau are home from a vacation in Massachusetts and Vermont.

R. F. Hooper and family from Wollaston, Mass., have been guests of Mr. and Mrs. Frank Faunce.

Edwin Chick is organist at the Methodist Episcopal church.

Mrs. Arthur W. Hill, who has been spending several weeks with her mother, has returned to her home at So. Gray. While here "Bunnie" took charge of the house, leaving Mrs. Nash free to devote her whole time to her Taxidermist business.

Charles G. Melanson of Lynn, Mass., with his wife, daughter, and several relatives, were in town Wednesday. They are spending their vacation at Freedom, N. H., and made the trip here to see the town where Mr. Melanson used to live, leaving here twenyt-four years ago. He says he notices many changes and everything seems much more prosperous than in the earlier days.

C. B. Cummings & Sons Co. mills are on the half-holiday every Saturday until fall.

NORWAY MUNICIPAL COURT

A group intimate with moonshine whiskey were brought to court Tuesday by Highway Police, C. E. Patten. The respondents were Carl Walo of Otisfield, who was fined $300 and 60 days in jail for illegal transportation of liquor. The automobile was held by the county but he appealed and gave bonds in the sum of $500. The sureties were Ed. Jackson and W. F. Knight. Others in this joyful group were Verner Ylevi and John Laine, both of West Paris. Yelvi was fined $100, for reckless driving and Laine, for intoxication, was fined $10 plus costs.

William Sheffield absorbed too much alco-rub Saturday night and after some disturbance early Sunday morning was taken to South Paris. He was seriously ill and under the care of a physician until his appearance in court, Tuesday. He payed a fine of $5 and costs for intoxication, and claims the events of several days are a blank.

Davenport-Philbrook

A quiet wedding took place at the home of Mrs. Carrie I. Philbrook, 17 Summer St., Norway, at nine o'clock, Wednesday morning, July 9, when her daughter, Margaret A. Philbrook, was was united in marriage to Guy L. Davenport of Livermore Falls. Rev. N. R. Pearson of the Norway M. E. Church was the officiating clergyman. The double ring service was used. Frederick L. Philbrook brother of the bride, was best man; Mrs. Parker Drown, sister of the bride, was matron of honor. Only the immediate members of both families, and a friend of the groom, were present.

The bride was gowned in gray crepe-de-chine and carried white roses. Her going away dress was blue and gray, with a becoming hat to match.

Refreshments of sandwiches, doughnuts and coffee were served. The couple left immediately, by auto, for their honeymoon, to a cottage down in Maine. Decorations were roses and ladies' grass.

The young couple were the recipients of many beautiful and useful presents, and have the best wishes of friends.

THE MAN WHO IS AHEAD

You are pretty sure to find
In almost every paper
A lot of gush and nonsense
About the man behind—
The man behind the buzz-saw,
The man behind the gun,
The man behind the ploughshare,
And the man behind the son;
The man behind the whistle,
The man behind the cars,
The man behind the kodak;
And the man behind the bars,
The man behind the whiskers,
The man behind the fist,
Oh, you read about them often,
For they're always on the list,
But there's another fellow
Of whom nothing has been said,
It's the fellow who is even
Or a little way ahead;
The man who pays up promptly
And whose checks are always signed,
He's vastly more important
Than the man who is behind.
For every kind of business
And the whole commercial clan
Is indebted for existence
To this honest fellow man.
He keeps us all a-going
And his town is never dead,
So we all take our hats off
To the man who is ahead.

Thomas Kingsbury of Portland passed the Fourth with his sister, Mrs. Harley D. True, School Street.

Josiah T. Rowe, the barber, thinks of selling the business, because of poor health. He has wielded the shears and brush nearly fifty years and conducted business under his name about forty-five years. He believes a vacation has been earned and proposes to get away from business for a spell at least.

Ford Automobiles Disappeared

Arthur Tracy of Norway lost a practically new 1924 model touring car, Monday forenoon, which was parked in the rear of the Mason Manufacturing Co. factory at South Paris, where he is employed. This was the only auto disturbed in a group of twelve or more, and Mr. Tracy did not discover the loss until noon. He notified Sheriff William Frothingham, and the search is on.

The same forenoon, Jason Scribner of Bolster's Mills tore around town with the news that his Ford had taken French leave. He remembered, or imagined he remembered, parking opposite Greenleaf's Cafe. As a matter of fact, he wasn't sure of anything but mighty hot weather along the cement road. Rushing into Richardson's market, he broadcasted the news of his loss. If the car was gone, it meant a long, weary hike home. After getting all "het up" over the theft, it occurred to him that he might be off in his geography of the village. Following this tip, a search along the curbing resulted in finding the car some distance down town, opposite the bank where he transacted business earlier in the day. A good melodramatic story was nipped, but not before the news reached the Weary Club.

Mrs. Caroline E. Winchester

After several months suffering, Mrs. Caroline E. Hayden Winchester, wife of Howard L. Winchester, passed away Wednesday noon, July 9, at her home in Manchester-by-the-Sea, Mass. While her passing had been expected for some weeks, the end came as a shock to relatives. Her age was 53 years.

She was born in Norway on July 21, 1871, the daughter of the late John J. and Clara J. (Ames) Hayden, and passed her early years in Norway. Mrs. Winchester was a member of the Universalist church and active in many charitable organizations. Her benevolences will never be forgotten.

She is survived by her husband, and one son, Marshall Winchester, of Manchester. She leaves five brothers, Henry B. Hayden, of North Buckfield; Eugene F. Hayden, Norway; John J. Hayden, South Paris; Samuel H. Hayden, Manchester and Dr. Frank Hayden, of Chelsea, Vt. Two sisters survive, Mrs. Frank Knight, of Manchester, and Mrs. Fred E. Drake of Norway.

Services and burial will be at Manchester, Friday at 2 p. m.

Mrs. Grace A. Swift

After several months' illness of diabetes, Mrs. Grace A. Swift, widow of George D. Swift, died at her home on Paris street, Sunday afternoon, July 6. Her age was about 56 years.

She was born at East Boston, April 23, 1868, the daughter of Frank A. and Grace Wood Griffin. On September 20, 1888, she was married to Mr. Swift of Norway, a contractor and builder, who was employed in Boston at that time. After residing in Portland and Bath, they settled in Norway and in the course of time built a home on Paris street. Mr. Swift died, Dec. 25, 1916. For a long time Mrs. Swift carried on a milinery business at her home, having learned the trade years before her marriage. She had been employed in the shoe factory until her health failed.

Mrs. Swift was a member of the Second Congregational church and of Lake Temple Pythian Sisters.

She is survived by one son, Archie D. Swift, of Massachusetts, and one daughter, Ruby, wife of Francis Carroll, of South Paris. She also leaves one sister in Portland and several grandchildren.

The funeral was held at the home, Wednesday, at 2 o'clock, Rev. O. B. Tracy officiated. The Pythian Sisters performed their burial service. Bearers were Philip F. Stone, Oliver J. Foss, Edward C. Winslow, and Edward Anderson. Burial was in Norway Pine Grove cemetery.

State, County and Town taxes this year are $45.00 per thousand, corporation, $9.50 per thousand.

Linwood Flint and Bert Flint, of North Waterford, attended the circus, Tuesday. Lin was one of the most excited kids on the grounds, for his strongest asset is the show business, even Bert is running a close second in the race.

Capt. Mel Sampson:—"There are about seventy camps about Lake Pennesseewassee, all but one were occupied over the Fourth and week-end."

The Norway Buick Co. was conspicuous in the circus parade, Tuesday with advertising banners on the elephants, camel and mules. Seven new Buick cars were also in the procession. "Picture Bill," of Rex Theatre, also put on a stunt in the form of a covered wagon, calling attention to a movie story "The Covered Wagon." Del Pennock handled the reins and was costumed to fit pioneer days, clay pipe and all.

A Main street wag placarded a mud puddle extending across the sidewalk and into his yard, with a touching sign. This is the inscription, "Sandyville Ferry, passangers, 10c; autoes, free." What a slap, when farmers needed rain so badly.

Eliot Anderson has employment in the store of Brown, Buck & Co.

Fourth of July Carnival

The Community Club Carnival and cabaret at Association Hall, Friday evening, was a success, and a large crowd attended.

Decorations were of flowers and the national colors. Tables were arranged on the floor under the balcony, where sandwiches, drinks, and ices, were served during the evening.

Fine music for dancing was by Pettengills Orchestra of Lewiston. Between dances vaudeville acts were presented on the stage. These included a number of patriotic tableaux; a group of songs by Leon Harlow of Boston; solo dances by Miss Lucille Morin of Brunswick; song from "Magic Melody," in costume, by Warren Stearns and Glenna Knight; a "Wildflower Dance," by eight girls, with a solo dance by little Miss Nathalie Murch; and a character song, "It Ain't Going to Rain No Mo'," by Clarence Hatch.

The committees deserve praise for much hard work to make this entertainment attractive and worthwhile. Proceeds go for maintenance of the community nurse.

The following served on the various committees, of which Mrs. Mae Stevens was chairman:

Pres.—Roger Davis.
Vice Pres.—E. S. Jones, R. E. Butts.

WHY SUFFER SO?

Why suffer from a bad back, from sharp, shooting twinges, headaches, dizziness and distressing urinary ills? Norway people recommend Doan's Pills. Ask your neighbor. Could you ask for stronger proof of merit?

Albert F. Prescott, shoemaker, Crocketts Bridge, Norway, says: "My kidneys gave out and I had backache so badly it put me past going for several days. I couldn't bend, I was so stiff and lame. I was working in the ship yards at the time and I blame so much heavy lifting for the trouble. I had to get up several times during the night to pass the kidney secretions and I felt drowsy all the time. Finally I went to Stone's Drug Store and got Doan's Pills and began using them. Doan's reached my case at once and after using three boxes, the trouble left entirely. I have felt fine since."

WHAT I LIVE FOR

I live for those who love me,
Whose hearts are kind and true,
For the heaven that smiles above me,
And awaits my spirit, too;
For the human ties that bind me,
For the task by God assigned me,
For the bright hopes left behind me,
And the good that I can do.

I live to learn their story
Who've suffered for my sake,
To emulate their glory,
And to follow in their wake;
Bards, patriots, martyrs, sages,
The noble of all ages,
Whose deeds crowd history's pages,
And Time's great volume make.

I live to hold communion
With all that is divine,
To feel there is a union
'Twixt Nature's heart and mine;
To profit by affliction,
Reap truths from fields of fiction,
Grow wiser from conviction,
And fulfill each grand design.

I live to hail that season
By gifted minds foretold,
When men shall rule by reason,
And not alone by gold;
When man to man united,
And every wrong thing righted,
The whole world shall be lighted
As Eden was of old.

I live for those who love me,
For those who know me true,
For the heaven that smiles above me,
And awaits my spirit, too;
For the cause that lacks assistance,
For the wrong that needs resistance,
For the future in the distance,
And the good that I can do.

—George Linnaeus Banks.

LIFE'S MIRROR

There are loyal hearts, there are spirits brave,
There are souls that are pure and true,
Then give to the world the best you have,
And the best will come back to you.

Give love, and love to your life will flow,
A strength in your utmost need;
Have faith, and a score of hearts will show
Their faith in your work and deed.

Give truth, and your gift will be paid in kind,
And honor will honor meet,
And the smile which is sweet will surely find
A smile that is just as sweet.

Give pity and sorrow to those who mourn;
You will gather in flowers again
The scattered seeds from your thought outborne
Though the sowing seemed in vain.

For life is the mirror of king and slave;
'Tis just what we are and do;
Then give to the world the best you have,
And the best will come back to you.

WILD GRAPES KILL TURKEYS

Wild grapes are killing thousands of turkeys throughout the country," reports a writer in the Farm Journal. "Last fall I observed one flock feasting every day on something on a certain tree. When time permitted to make an investigation, it was too late. I found five turkeys, nearly matured, lying dead under the tree and several more quite ill. The tree was loaded down with wild grapes upon which my turkeys had been feasting for several days. Today the vines are cut.

"Cultivated grapes, while not so dangerous as the wild ones, will also kill turkeys if eaten to excess. Green corn, particularly during a very wet season, is also fatal, destroying thousands of turkeys annually. The turkey raiser who feels it is no longer necessary to look after the diet of his stock after they are feathered, is more than likely to suffer the loss of a number of fine birds during the early fall by wild grapes, green corn, etc.

"When turkeys are nearing the marketing age, it pays handsomely to the lowest possible ebb by cutting all wild-grape vines near their range, and by preventing them from feasting on green corn."

American Legion Auxiliary

An important meeting of the American Legion Auxiliary was held Wednesday evening, at Legion Hall. Considerable new business was taken up and voted upon and several communications read and discussed, also reports given from the various committees.

Blanche Lafrance, Hazel Conary, and Harriett Knight were added to the Hope Chest Committee to assist in soliciting from the members. It was decided to display the Hope Chest and contents in the window of the J. H. Fletcher candy store on Main Street, at an early date.

President Hazel E. Conary appointed committees for the card party and dance, which takes place next month, as follows: Music and Hall, Mrs. Eva Evirs and Mrs. Bertha Young; Card party, Mrs. Annie Prince, Mrs. Grace Klain, and Blanche Lafrance.

The convention, August 26-27, will be held at Waterville this year. Two delegates and two alternates are required from the local auxiliary. Mrs. Elizabeth Manning and Mrs. Nettie Nevers were nominated as delegates, and Harriett Knight and Blanche Lafrance as alternates. Sister Harriett Knight will attend to the transportation.

It was voted to change the night of meeting to the second and fourth Wednesdays of each month so to meet the same night the Legion does. Therefore, next meeting will be Wednesday, July 23, at 7:30.

A PRAYER

I've labored in Thy vineyard, Thou dost know;
I've sold ten tickets to the minstrel show;
I've called on fifteen strangers in our town
Their contributions to our church put down;
I've baked a pot of beans for Wednesday's spree.
An old time supper it is going to be;
I've dressed three dolls, too, for our annual fair,
And made a cake which we must raffle there,
Now, with Thy boundless wisdom so sublime,
Thou knowest that these duties all take time;
I have no wish to fight my spirit's foes;
I have no time to mend my husband's clothes:
My children roam the streets from morn till night,
I have no time to teach them to do right,
But Thou, O Lord, considering all my cares,
Will count them righteous, also heed my prayers.
Our chicken supper bless and minstrel show,
And put it in the hearts of all to go,
Induce the visitors to patronize
The men who in our program advertise;
Because I've chased these merchants till they hid
Whene'er they saw me coming, yes, they did
Increase the contributions to our fair,
And bless the people who assemble there.
Bless Thou the grab-bag and the gypsy tent,
The flower table and the cake that's sent;
May our whist club be to Thy service blest;
The dancing party gayer than the rest,
And when Thou hast bestowed these blessings, then
We pray that Thou wilt bless our souls—Amen.

He that has light within his own clear breast
May sit in the centre, and enjoy bright day;
But he that hides a dark soul and foul thoughts
Benighted walks under the midday sun;
Himself is his own dungeon.—John Milton.

THE EARLY BUG MUST BE CAREFUL

(By Seth W. Shoemaker)

Most garden plants have one or more insect pests that will stunt or destroy them unless carefully watched.

The early bug is on the wing constantly and he is the one who must be watched. Plants are injured more easily when small than when large because a single bite of a small plant takes away a much larger percentage of the plant than when it is larger. The loss saved from killing one bug early in the season is often equal to the loss by 100 or more later in the season.

Insects that try to make a living out of your garden are of two general types—the biting or chewing type and the sucking type. Most of the insecticides which contain arsenic are effective for killing the chewing insects. Care must be taken, however, not to use the kinds that will injure the plant such as Paris green alone.

The sucking insects must be gotten rid of by an insecticide which destroys by eating through the back but which does not injure the plant to which the insecticide is applied.

Insecticides of this kind may be either wet or dry, the wet ones being sprayed on by some form of compressed air sprayer and the dry ones dusted on either with a can or by hand. The simple powder gun used for cleaning beds may be selected for a small garden. The following is a summary of the plants which need attention most.

Asparagus—The beetles and bugs of the common asparagus beetle eat the young shots of the plant in spring and summer. In the spring if the shoots are cut every day the beetles are not liable to injure them seriously. After cutting, the plant may be dusted with poison. Paris green or arsenate of lead may be used. If Paris green is used it is well to mix it with gypsum.

Beans—The leaves of the bean plant may be eaten in the summer by the blister beetle, bean lady bird and the bean leaf beetle. Arsenate of lead is good to spray before the plant starts to grow much. If you have bean weevils in your seed, either discard it altogether, and buy new seed or put it in a tight box and fumigate with carbon bisulphide. Use one ounce of carbon bisulphide for every sixty cubic feet of air space in the box. Sprinkle the liquid over the beans. Keep fire away as the gas is inflammable.

Beets—The beet leaf miner is a maggot that digs tunnels occasionally in a beet leaf. The home gardener need not bother with this as the damage is not serious unless the beets are grown for market when they sell for less if their appearance is spoiled.

Cabbage—The cabbage plant has a host of enemies, but the home gardener often gets along with very little work against them. The green cabbage worm and the cabbage looper that eats holes in the leaves in the summer may be killed by spraying with arsenate of lead solution two or three times before the head hardens. There is no danger in using poison in this way as the outside leaves are discarded in preparing the head for the

The cabbage aphis, little green and blue-black lice, will sometimes make the leaves pucker in the summer. The first plants infected should be pulled up and destroyed. If this is done, sometimes the trouble will cease. Tobacco dust or whale oil soap is effective.

Cut worms looking like smooth white caterpillars, will often eat the stems off the cabbage plants in the spring. These may be combated by wrapping paper bands around the stem and by poison bait consisting of one pound of arsenate of lead, or Paris green, to fifty pounds of bran placed near the plants. A small quantity of sugar should be added to this and the mass moistened with water to form a mash. Children and poultry should be kept away from it. Seedlings with tough sturdy stems are not seriously affected.

The cabbage root maggot is a white maggot that causes the leaves to wilt. It attacks the plants late in the spring or early in the summer. Tared paper collars placed around the stems of seedlings close to the ground are most effective. Water slaked lime to which a small quantity of carbolic acid has been added may be used in place of the paper scattered along the rows in proportion of one cupful of kerosene to a bucketful of sand acts as a repellent.

The harlequin cabbage bug is an orange and black bug which causes the leaves to wilt in the summer. On a small planting hand picking is effective. On a large planting sow a row or two of radishes or mustard planted early as trap plants on either side of the cabbage patch and when bugs attack them drench with a raw kerosene spray. This kills both bugs and plants but safeguards the later planted cabbage plants.

NATIONAL TRUNK LINES

Why has the Nation "no business helping States?" Why is road building "for the State and County?" Who ordained that the National Government, which is all of us, should not help several groups of us, which are the States, to solve their problems? Who made the law that the Nation shouldn't build its own roads?

There is much question in many minds as to the advisability of Federal aid for road building; whether the policy of the Nation aiding the States to build the roads will work, in the long run, to any better advantage than that of the States aiding the counties to build roads, is yet to be demonstrated. But we can see no reason for saying the Nation "has no business" to do so, if it is best judgement that it should.

As for road building being properly a State or county function, the government has already made rail and water transportation a matter of national concern. The Nation, not the States, subsidized the first transcontinental railroads, to get them built. The Nation, not the States, improves our waterways. The Nation not the States, built the Panama Canal. The great beauty spots of the continent are National, not State, parks. Railroads, waterways, Panama Canal, parks, are for the Nation. built by or with the assistance of the Nation. Transportation and some of its objectives are national concerns. Why eliminate roads from the list?

That this Nation will eventually build a national system of national highways is as inevitable as was the canal. It is merely a question of when, and how—with "where" more easily determined than either of the others. But the "when" is not so hard to answer; the United States of America will build own and control and forever maintain its basic trunk line system of national highways, thus bringing good roads everywhere, when, and not until when, the people of the United States demand it.

And if there is any truth in signs that demand is now being made and more and more strongly every year.

When a man is sick he calls the doctor. He has faith in the doctor as long as the doctor makes him better. But when he finds that the physician has diagnosed the case incorrectly or is using a treatment which does not bring back health he either changes doctors or asks for a consultation.

Sick for good roads, the American people called in a doctor (Congress) and received a "first-aid" treatment, called Federal aid, by which the physician ordered from the pharmacy (the Public Treasury) sufficient dollars to help the various parts of the United States to build new arteries.

But the United States needs not a few but a very large number of new arteries, and the prescription of the doctor isn't producing them in time to save the economic life of the patient!

Is it, therefore, not the part of wisdom to ask for a consultation and have the doctor confer with other physicians with another and a newer vision of the illness of poor roads and the method of their cure?

One of the cures advocated, and the only one which hasn't been tried, is the appointment of a National Highways Commission, to consider and report to the Congress on the subject of establishing, building, and forever maintaining a system of national highways. States which tried State aid and found it did not cure have tried State highway commissions and found they did not cure; why should not the United States find as a whole the same good result the several States have found for themselves?

Roads are a national, not a State, problem. Transportation is a national, not a State, problem. Only the Nation can adequately and intelligibly lay out a system of roads for the Nation, and only the Nation can afford to build and maintain such highways as will adequately care for the present, not to speak of the future, traffic!

Putting Labels on the Country

"What town is this?" All tourists have asked the question hundreds of times. Progressive towns put the name of their city on signs at the city limits, just as they also put "through arrows" to guide the traveler.

"What road is this?" is asked almost as often, especially on the less traveled highways. Main traveled roads are rapidly being marked, so that the visitor from afar is not confused.

"What river is this?" is often a matter of wonder to the motorist, who passes over several branches of the same stream, alongside a lake, or over a bridge without knowing what body of water it is which he crosses or passes.

The League of American Pen Women is asking the various State Highway Commissions to place suitable markers near famous streams to inform the traveling public. It is a laudable work, but why, the traveler wants to know, stop at famous streams? Why not mark all bodies of water on or near any and all roads, so that the traveler may get better acquainted with the country through which he passes?

Municipalities find it pays to welcome the tourist, to guide him surely and quickly, to make him feel at home. The "Stop! Ten miles an hour under penalty of the law" sign is disappearing in favor of the "Our speed limit is fifteen miles an hour, please observe it, as we make you welcome" type of sign. With the latter goes the courtesy of road markers and stream label, worthy work for any civic club to take up, that the municipality be visited with joy and remembered with pleasure.

BATES—WEST PARIS

Two Accidents

Two serious accidents have occurred in the past week, which have been a great shock to the entire village. The first occurred early in the afternoon of the 4th of July, when Edward Lauri Immonen, aged 14, and Reino Korhonen, aged 11, went up the river a short distance to the swimming hole. Both could swim some, but not like some of our older boys. Edward was swimming on a board at first, and then for several minutes without, when he called for help as though seized with cramps. The other boy gave the alarm, but at that time there were very few people around for nearly all the boys and other sport lovers had gone to Norway to the ball game, or other places of amusement, so it was about three-fourth of an hour before the body could be brought up out of the water. He was taken to his home and a pulmotor was brought from South Paris, with which Dr. Packard tried, to no avail. There had been too many delays.

Edward Lauri Immonen was the younger boy of Lauri and Annie McKeen Immonen. He was a member of the class of '26, W. P. H. S. His older brother, Jacob, was one of the graduates of the class of '24. Edward was a great favorite among his schoolmates, good natured and full of fun. The funeral was held at the home, Sunday, at 2 p. m., attended by Rev. Eino J. Hammalainen, pastor of the Finnish Congregational Church, and Rev. Alexis Raita, a former pastor. Two hymns were sung, one was "Shall We Meet Beyond the River." The service was all in Finnish. Quite a lot of English speaking people were present, also the high school classmates were present in a body, and followed to the cemetery in autos, four schoolmates, Charles and Thomas Perkins, Gerald Day, and Albert Martin were bearers. There were many beautiful flowers.

The second accident happened early Saturday morning, July 5, when little 8 year old Sadie Hollis was enoying a left-over sparkler, after it had gone out she laid the hot end on her dress while she opened an old cracker which she was going to light with the hot sparkler end, but while she was engaged with the old cracker, her dress began to burn and soon was all ablaze, for she was out near the piazza. Her mother and aunt heard her cries and threw a pan of water over her, also burning their hands, putting out the fire. The neighbors also heard the cries and rushed to aid, getting both Dr. Packard and Dr. Raymond and her father, who had just gone to the mill to work. Her left side, leg, arm and face was injured, though not considered seriously, and through the day was comfortable, but towards night there seemed to be a change and she died at 11 p. m. of the same day, July 5, caused from the shock of the fright. The nerves were not strong enough to bear it.

Sadie was the third child of Harold and Martha MacPherson Hollis and was born in Sumner, June 20, 1916. She leaves two sisters, Hattie and Evelyn, older, and a sister, Lois, and baby brother Earl Harold, younger. The funeral was held Monday at 2 p. m., at the home, attended by Rev. Eleanor B. Forbes. A number of her little school and play mates were present. Four boys, Gerry Emery, Irving and Robert Penley, and Linwood Curtis were bearers.

The flowers were many and very beautiful.

4th of July passed off very quietly here as that day is not expected to be. On account of two or three sick people, no bells were rung and very little other noise or jokes.

Mrs. L. C. Bates, who has been very sick, is improving a little.

The steroptieon illustrated lecture at the Federated Church, Sunday evening, was on "Home Missions Among the Laboring People of Our Country" and was very instructive.

The old corn shop which has been in the process of "tearing down" for several weeks past, has been completed and a new one is commenced, which will be larger and more convenient when done, but they don't expect to be able to finish it this year. Only the cutting will be done here and then sent to South Paris for canning.

Maud Carter is home from her schoo in Boston and is helping care for her father. Mr. Carter received a call from six civil war veterans from South Paris, recently.

Mrs. Fannie Dinsmore of Norway is visiting her sister, Mrs. S. J. Caldwell.

Mrs. C. L. Ridlon has returned from St. Barnabas Hospital, Portland, and is at their camp at Locke's Mills. She is improving in health.

Mrs. Frank Vaughn and two little girls, Mrs. MacPherson and son, John, from Livermore Falls, visited Mr. and Mrs. Harold Hollis, a week, over the 4th of July.

Mrs. Walter Wheeler sustained injuries by scalding, Tuesday night, while getting supper, when, during the severe electrical shower, the lightning struck the side of the house and the shock of it caused her to spill a teapot full of hot tea down over her chest and body. Although she was burned badly, it is not at all serious.

WHY GO TO CHURCH

Going to church satifies a need. We eat to satisfy physical hunger. We sleep to refresh our tired and worn bodies. So church going satisfied man's longing desire to know God. The finest fellowship that is found among men is furnished to those who avail themselves of the privilege of church attendance.

Where learn the lesson of the Heavenly Father's love and care better than at church? Where is the lesson of brotherly kindness taught better than at church? Here is it cultivated consideration and responsibility for the others that makes the world's best citizenship.

NEW YEAR'S GREETING.—The Lord bless thee and keep thee. The Lord make his face shine upon thee, and be gracious unto thee. The Lord lift up his countenance upon thee, and give thee peace.—Numbers 6:24-26.

ATTENDDING

Deer Skinny,

The memburs of First church don't attend the Meatings. Even new memburs are Skarcely seen again in the Sankchewary after they have joined. Dad says it is because their Preechur tells them that going to church won't make them Christians and is not so important as living noble lives every day.

But dad says that kind of preeching will kill the church that lays the Golden Egg, and that going to church and heering the preeching of the World is one great Insperation to Rite Living.

Our Preechur thinks so too. He told the Bord that if Rotarians have to attend every meating or be counted Unfaithful, why not church memburs? He says how can the Spirit guide Christ's followers into all Truth if they don't lissen to the teachings that the Spirit sends through God's Profits? How can the Preechur develop the church in Spiritual Graces if he can't get them to heer is messages?

So they decided all our memburs Must be in their Seets every Sunday. When a person wants to join our church the Bored asks him, "Will you attend at least one service every Sunday unless you are sick?" If he won't promise they turn him down as not in earnest. When a New member Joins he is told that he will not be in Good Standing unless he Attends church Regularly.

The Deekins mark every absence and call on them. When a member is absent now we know that he is Most Dead, and the Hole church is growing in Grace.

Ain't it queer? Yours,
PUCKER.

MAINE, A BIG PLAY GROUND

State of Maine Publicity Bureau, headquarters in Longfellow Square, Portland, is booming Maine in a campaign to attract tourists. Railroad and steam-ship officials, State Highway Commission, the Maine Automobile Association and other organizations dealing with tourists are working in conjunction with the Bureau.

Many cities in the South are spending large sums of money to attract winter business. Their advertising is extensive and well placed. The Bureau argues, as Maine is a natural scenic playground and recreation spot, this fact should be broadcasted and bring within its borders tourist travel of the better kind. With our limited methods, it is estimatd 700,000 visitors leave $52,000,000 each year. Practically every business in the state receives indirectly a portion of this amount.

This is accomplished on the modest sum of $25,000 in contributions, what a contrast to $650,000 spent last year by the Chamber of Commerce in Los Angles, Calif., for publicity. The Bureau asks the business men, "Is Maine to let the opportunity slip and allow winter resorts to capture what should be ours?"

NORWAY AND VICINITY

The Fourth Quiet and Sedate

The glorious holiday on Friday passed with some noise and a few stunts during the early hours. A number of special officers were on duty with Night Officer, Earl Barker, which may account for the small amount of wreckage and exchanges. "Pretty quiet" is the general comment.

Norway was a typical "Sleepy Hollow" during the day. Many were in camp or visiting; a few attended the celebration at Oxford.. Those not over to the fair grounds watching baseball games, loafed in the shade about home and kept cool.

The youngsters kept busy with explosives and fortunately dodged serious accidents. Stores practically cleaned up on explosives before night and had a busy day. Refreshment business was at top notch.

A few families set off fireworks in the evening and a majority of the young people attended the carnival dance at South Paris and dancing pavilions within easy motoring distance.

Fred E. DeCroteau is visiting his brother, William E. DeCroteau, and sister, Mrs. Bertha Savage. Mr. DeCroteau is manager of the Class A. Theatre, in San Francisco, Cal., and is enjoying a trip through the east during his vacation. His wife is visiting her parents, in North Dakota.

Arthur D. Cummings, Fore Street, had green peas on the market, the first few days in this month.

Philip Haskell of Auburn is spending a two week's vacation with his parents, Mr. and Mrs. Frank Haskell, Pleasant street.

Miss Mercy Millett is taking a vacation from the Norway National Bank and visiting her brother, Robert N. Millett and family at Springfield, Vt.

Rupert Mixer of Detroit, Mich., is visiting his parents, Mr. and Mrs. Horace Mxer. His wife stopped off in Canada to visit her people.

Don Smith of Hartford, Conn., has been the guest of his parents, Mr. and Mrs. Howard D. Smith. He returned to Hartford on Saturday.

News of Former Employee

Mr. Fred W. Sanborn,
Editor Norway Advertiser,
Norway, Maine.

Esteemed friend:

While visiting over the holiday just passed, with Mr. and Mrs. John A. Cleveland and his aged mother, Mrs. Melinda C. Cleveland, formerly of Otisfield and Norway, now of Milton, N. H., I chanced to pick up a copy of one of your recent issues, and my attention was called to the "History of a Hand Press."

I scanned the list of names of its former companions in trade with much interest, and in hopes of finding my own among them.

I was greatly chagrined, however, despite the fact that I was given credit by you as being the most conspicuous and devilish devil ever apprenticed to your esteemed office up to twenty-five years ago, to discover that I was apparently forgotten, although barely possible, intentionally.

Be that as it may, I am and have been in the printing business ever since having started in your employ, and at present am employed on the Peabody, Mass., "Times," a tri-weekly, as linotype operator, having given up hand composition entirely about four years ago, after having "stolen" the keyboard at the office of the Boston Post while "subbing" on that paper nights in the ad room on hand work for about six months.

Since having left the Advertiser, I have followed composition almost entirely, and have worked in many towns and cities throughout Greater New England; but for the past 12 or 15 years have been working in and about Boston, holding membership in Boston Typographical Union No. 13 for the past twelve years.

Incidentally, the senior partner of the firm for which I am at present working, Mr. Roger A. Goodwin, is a nephew of the late Wm. Rowe, who, at one time, conducted a slaughter house somewhere in Norway.

I might add that another member of The Times staff is one Hugh Pendexter, Jr., formerly of Norway, who at one time presided over the furniture store of the Cummings Bros., in the capacity of Advertising Manager.

I wish also to add that I read with much sympathy for you of your bereavement early last year. I have two girls and a boy living, and lost a girl who would have been 10 years in October, by my second wife, a Springfield girl, whom I married eleven years ago. We reside in Somerville, Mass., and I travel to and from work to Peabody, a distance of twenty miles, a la Ford.

Thanking you for your attention, and wishing you many more years of prosperous life and health, I am

Sincerely yours,
Robert E. Walker.

P. S.—My son by my first wife, Bertha Tripp, is now 19 years old, and is working in Exeter, N. H., for the Exeter Brass Foundry, as a general workman. He also owns a Chevrolet and visits me occasionally.—R. E. W.

Improved Rustfield Cemetery

The question of improving conditions at Rustfield cemetery is being agitated by the citizens. The town has taken up the matter and started improvements with about twenty rods of new wire fence on two sides. Harry E. Lovejoy, who has charge of the burial ground, is mowing the lots and removing the hay.

Cutting the lots down to a common level has been suggested. Several estimate $2000 will do this work, and straigthen up many headstones and several monuments now leaning in every direction.

Many lots are sadly neglected. Families are extinct or relatives reside in distant states and perhaps are not interested. This condition should not exist.

Whatever the cause of this forgetfulness at Rustfield, something definite should be done to improve its appearance. Public subscriptions, or an appropriation by the town have been suggested. We easily contribute several thousand dollars for summer sports, why not do something to beautify, one of the oldest burying grounds in town, located within a few rods of Main Street.

The favorite play, "Tempest and Sunshine," will be presented by a local cast late in August, under the auspices of Lake Temple Pythian Sisters. The author is Mary J. Holmes and the play is a copy of the original stage manuscript requiring eight characters. Harold A. Anderson will be the director and coach. Mrs. Linnie Bartlett, Miss Helen Swan, V. E. Rowe and Carroll Bartlett, motored to Portland, Sunday. They went via Gray and Falmouth Foresides.

If the State of Maine Publicity Bureau had $100,000 to spend each year, it could, in ten years, double the summer tourist population and give to Maine an annual business of $100,000,000.00—all outside money. Last year it spent $23,000 with excellent results, in summer tourist business. The question is worthy of a few moments of very serious consideration.

MRS. BUSH TELLS OTHER WOMEN

How Pains in Side and Dragging Down Feelings Were Relieved by Lydia E. Pinkham's Vegetable Compound

Massena, N.Y.—"I had terrible pains in both my sides and a dragging-down feeling that affected me so that I could hardly walk, and I got rundown. A friend who had taken Lydia E. Pinkham's Vegetable Compound advised me to try it and I have taken it with the best results. I do my housework and also some outdoor work on the farm. The Vegetable Compound has given me back my health and I can not praise it enough. I am perfectly willing that you should use these facts if my letter will help other women who still suffer."—Mrs. DELBERT BUSH, R. F. D. 1, Massena, N.Y.

The spirit of helpfulness shown in the letters we are constantly publishing is worthy of notice.

These women know by experience what Lydia E. Pinkham's Vegetable Compound will do. Your troubles are the same as theirs. Isn't it reasonable to expect the same results?

If you have pains and a dragging-down feeling and are nervous and irritable, profit by Mrs. Bush's experience and give the Compound a trial.

DURO Water Systems Lead

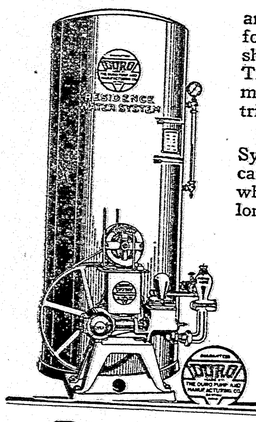
There Must Be a Reason

Naturally, there must be some reason why Duro has grown to be the largest exclusive manufacturer of private water systems in the world.

The reason is that the founders of Duro had faith that the American people would welcome a water system which would give real city water service to suburban and farm homes.

The original idea of a carefully designed and honestly built product sold at a close price has always been strictly adhered to. As a result the organization has grown until there are now nearly 17,000 Duro dealers all over the country.

DURO Water Systems



are made in many sizes and styles—for a bungalow, or country club; for shallow wells, deep wells, or cisterns. They are compact, powerful, and automatic. They are driven either by electric motor or gasoline engine.

There is no mystery about a Duro System—it is simple, practical and carefree. But there are many reasons why a Duro System will give you longer and better service.

Drop in and ask us to demonstrate Duro features to you—we will gladly quote prices also.

Dialogue, "Yes, David" .....

When the curtain rose it disclosed "David" on one end of the settee, and his lady at the other exrteme end. "David," in a slow, very hesitant manner, endeavors to propose to the lady, at each sentence, hitching nearer to her. She responds, "Yes, David," to every statement of his, all the while getting rapidly towards her lover, who thus encouraged, finally speaks the decisive words. Thereupon the lady says, "Yes, David," and very affectionately lays her head upon his shoulder, while his arm most lovingly encircles her waist. The parts were rendered in a realistic manner, by E. L. Gay and Mrs. Mary Hicks. After the meeting, ice cream and cake were served and greetings and congratulations were in order, as the Master, Edward Scribner, came with his bride, nee Miss Mabel Pitman.

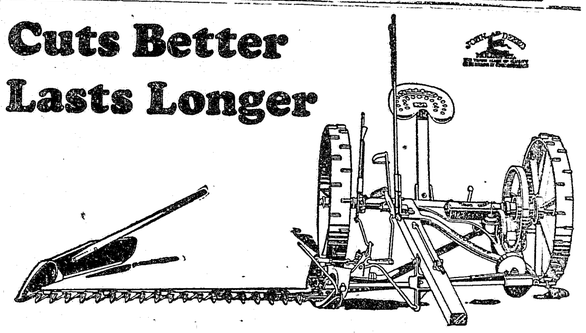
Cuts Better
Lasts Longer



You will appreciate the John Deere Mower the moment you see it in action. You will notice particularly its simplicity, its great cutting power and the ease with which it is handled. These advantages, combined with the extra years of service it gives, makes the John Deere a mighty profitable mower investment.

The flexibility of the cutter bar on the John Deere fits it for use in rough, uneven fields or for weed-cutting on roadsides—this feature you will like.

SIZES: John Deere No. 1 regular frame mower—3-½, 4-½ and 5-ft. cut. John Deere No. 2 big frame mower for severe cutting and field conditions—4-½, 5, 6 and 7-ft. cut.

JOHN DEERE MOWER
The Mower with the Balanced Gears

The driving gears on the John Deere are balanced—one set offsets the thrust of the other set. This eliminates side wear and strain. This mower transmits maximum power to the high grade carefully-fitted knife—that's why the John Deere does a better job of cutting and pulls lighter.

Another feature—if after years of use, lag develops in the cutter bar, this can be taken out—the bar is aligned by a simple eccentric adjustment. The John Deere handles easily. The bar can be raised high with the foot lever to pass over ordinary obstructions. With the hand lever an extremely high lift can be secured quickly and easily.

It's no job to keep the John Deere in good running order. All parts are easily replaced; adjustments easily made—its simplicity is a real feature.

Be sure to see this mower before you buy. It's the best mower we have ever seen.

CASCO

Wilkinson-Edwards

A wedding took place at the Parsonage Sunday, June 29, and the ceremony performed by the Pastor of Casco and Otisfield Churches, Rev. James A. Hayes. Miss Rilla Edwards, born and educated on Mayberry Hill, Casco, and a graduate of Casco High School, was united in marriage to Charles Albert Wilkinson of Cape Elizabeth. Mr. Wilkinson was born in New Hampshire, but being a sailor, makes his home at Cape Elizabeth.

Gerry-Gregory

Sabine-Burgess

The wedding of Helen Catherine Burgess, born in Casco, and a graduate of Casco High School, to Stanley Waldo Sabine, of Bridgton, was a very elaborate affair and the first event of the kind in Casco Baptist Church for a number of years. The Wedding march was played by the organist, Mrs. Ethel Leach, as the bride and her father, George N. Burgess, the bride's maid, Harriett Burgess, and the groom attended by the best man, Mr. Garland, of Bridgton, passed up the aisle to where the pastor, Rev. James A. Hayes awaited them at the altar, the double ring service being used. The white gowns, with bouquets of roses and the elaborate decorations of the church, added much to the impressiveness of the ceremony. The knowledge that it was the separation of the twins, "Catherine and Harriett," heretofore inseparable, made all feel the solemnity of the occasion.

The reception of the evening at the home of the bride was attended by a large number of friends and relatives and a great display of valuable presents.

The guests from out of town were Howard Greene, Mr. and Mrs. Clark and daughter, Mr. Garland and Charles Louis and wife of Bridgton and Mrs. Geo. RADIO FACTS

Few persons need to be told how rapidly radio is interpenetrating every part of our daily life. A writer has contributed to June CENTURY a most comprehensive article.

More than 2,500,000 radio sets have been manufactured and sold in the last three years in this country, with 560 broadcasting stations in operation in our United States, and 16,000 amateur transmitters sending and receiving by radio.

According to engineers of the Radio Corporation, 3000 manufacturers are turning out sets or parts of sets, thirty radio magazines have been started, 250 books have been written, 20,000,000 listeners constitute the present (spring of 1924) radio audience, and these spent $175,000,000 on their hobby last year, giving employment, in one way or another to 500,000 persons. There are twelve transoceanic stations, which communicate not only with Europe and Latin America, but with 2700 radio-equipped ships.

It's a fact that many of us are so worried about the bad that we can't see the good around and about us. We ought to cut that out.

One day is worth three tomorrows.
